Overview

In order to ensure an effective promotion of investments in Morocco initiated by both local and foreign institutions, Invest in Morocco (the Moroccan Investment Promotion Agency) has created a projects/opportunities bank to facilitate the contacts between projects sponsors and their future partners.

Projects teasers will be also made available via Invest In Morocco's website and will help the prospective partners to get a global overview of the investment opportunity while ensuring the confidentiality required by the sponsor at initial stages.

If the prospective partner decides to go further in the opportunity analysis, he can ask Invest In Morocco to arrange him a meeting with the project sponsor.

In order to maximize the added value of the projects bank, the matchmaking process is not limited to strategic and financial partnerships but covers virtually all possible opportunities like commercial agreements, mergers & acquisitions, joint ventures, representation agreements...

We hope that this projects bank will help investors to develop strong relationships and enhance the value creation in all economic sectors.
