WEST JAVA INVESTOR FORUM

“Think Investment, Think West Java”

Bandung, West Java, 6 October 2017

Bank of Indonesia in West Java in collaboration with the Islamic Corporation for the Development of the Private Sector (ICD), the private sector arm of IDB Group, and in cooperation with IDB Group Business Forum “THIQAH”, will organize the “West Java Investor Forum” on 6-7 October 2017 in **Gedung Sate, Bandung**, West Java, Indonesia. The forum aims to provide a communication platform between the Government of West Java and the investors from Middle East, ASEAN and other regions. Several significant investment opportunities and projects will also be presented during this forum. The forum will present and showcase the recent opportunities to do business in West Java and will also focus on the best practices concerning related industries. Moreover, the forum shall present an ideal occasion to investors, business people and CEOs to network and establish business relations with their counterparts and other leading representatives from the local business community in order to share their related experience & success stories, and to explore together the many investment possibilities that the country offers. Furthermore, it will connect investors with companies and individual entrepreneurs from West Java who have viable business projects to exchange views on their respective businesses. It will also provide a platform for a constructive and fruitful dialogue between the various parties and address topics of common interest to identify concrete ways and effective solutions to support investments and private sector development in West Java.

The two-day event will be organized in two sessions - of panel discussion and business matching in the first day, followed by site visit to two selected investment projects in the second day.

There will be 2 sessions on the 1st day and each session will start with presentations by speakers, followed by a panel discussion led by a moderator, which will provide participants with the opportunity to share their views and experiences, or ask questions. The business matching involves project owners of selected investment projects and opportunities in West Java, which will provide the opportunity for the participants and project owners to have extensive discussions on the investment projects.
